# PRÉFACE.

Le succès qu'ont eu les Livres de calcul que j'ai imprimés depuis 21 ans, m'a déterminé à offrir au public le présent ouvrage, un des plus étendus et des plus complets qui aient paru jusqu'à ce jour; les soins qu'on y a mis, pour le rendre aussi exact qu'intéressant, me font espérer qu'il jouira de la même confiance que mes éditions précédentes, et qu'il sera reçu avec un accueil aussi favorable.

On est bien éloigné de prétendre que cette production ne laisse rien à désirer, car le calcul qu'elle renferme est immense; ce qui rend les ouvrages de cette nature susceptibles d'incorrections. On a enfin tâché de rendre ce Tarif aussi correct que possible, et nous espérons y avoir réussi, puisque la critique ne nous a jusqu'à ce moment démontré aucune erreur, même dans les réductions que les circonstances nous avaient obligés de faire à la hâte, pour satisfaire le plutôt possible au désir de nos concitoyens.

546897

On n'a pas négligé d'opérer sur les plus petites fractions de deniers et de centimes, afin d'éviter la moindre erreur. Toutes les fractions ont été réduites en centièmes ou millièmes, pour faciliter les additions, et suivre la marche la plus conforme au système décimal.

Chaque compte a été calculé avec sa fraction jusqu'au dernier terme, et tout nombre fractionnaire n'a été augmenté d'une unité au dernier chiffre de sa fraction, que lorsque le chiffre suivant était plus fort de la moitié d'une unité fractionnaire.

Cet ouvrage, dans lequel on a suivi l'avis de plusieurs négocians de distinction, pour lui donner toute l'utilité et la perfection dont il est susceptible, a été calculé par un homme très-versé dans cette partie des mathématiques, et révisé par d'autres sous ses yeux, afin d'éviter les fautes qui quelquefois échappent à l'œil le plus pénétrant; et sans nous attacher à en démontrer l'utilité, nous le laisserons apprécier par ceux qui en feront usage.

# OPÈRATIONS

*Très-faciles pour faire des paiemens en francs, en anciennes Monnaies de France.*

LE Décret impérial du 18 août 1810, a réduit les Pièces de 6, 12 et 24 sols, à 25 et 50 centimes, et à 1 franc ; c'est-à-dire, que sans avoir égard à leur ancienne dénomination, elles sont admissibles pour *le quart*, *la moitié* ou *la totalité* du franc. Cette réduction ne peut embarrasser personne.

Un autre Décret du 12 septembre suivant, a réduit les Pièces de 3, 6, 24 et 48 livres tournois ; SAVOIR :

| | francs. | cent. |
|---|---|---|
| Celles de 3 livres (demi-Couronnes) à | 2, | 75 |
| Celles de 6 livres (Couronnes), à . | 5, | 80 |
| Celles de 24 livres (Louis), à . . . | 23, | 55 |
| Celles de 48 livres (doubles Louis), à | 47, | 20 |

L'écu de 3 livres est donc réduit d'un 12.me en considérant son ancienne valeur en livres tournois comme si elle était en francs. Ainsi 12 écus de 3 liv. qui valaient 36 livres, valent 33 francs ; vingt écus de 3 livres qui valaient 60 livres, valent 55 francs.

L'écu de 6 livres est réduit dans la même supposition, d'un 30.me Ainsi vingt écus de 6 livres, qui valaient 120 livres, valent 116 francs, etc. La réduction d'un 30.me se fait de la manière la plus simple ; car il n'y a qu'à retrancher le dernier chiffre, et prendre le tiers du restant ; EXEMPLE :

| | |
|---|---|
| Vingt écus de 6 livres, . . . | 120 livres. |
| Le tiers de 12 livres est, . . | 4 |
| Reste, . . . | 116 francs. |

Quant aux Pièces de 24 livres, il faut établir leur valeur en livres tournois Nous supposons, par exemple, qu'on reçoive 10 Pièces de 24 livres, qui valaient en argent tournois,

| | | |
|---|---|---|
| Livres, . . . . . . . . . . . | | 240 |
| Otez dix fois 45 cent. . . . | fr. | 4, 50 |
| Reste à admettre pour francs, | fr. | 235, 50 |

Enfin pour réduire les Pièces de 48 livres tournois, l'opération est également facile; on compte 5 Pièces de 48 livres tournois pour la valeur de

| | | |
|---|---|---|
| Livres, . . . . . . . . . . . | | 240 |
| Otez cinq fois 80 cent. . . . | fr. | 4 |
| Reste, . . . | fr. | 236 |

Les Espèces ci-dessus, celles de Brabant et autres, peuvent être réduites en argent courant de Brabant, en déduisant de leur ancienne valeur la perte qui se trouve à raison de 100 florins, comme nous l'avons marqué à la fin de chaque réduction.
